Wastewater Utility Green Power Report

April 2012

Electricity Generated in April: **79,144 kWh (kilowatt hours)**

This amount of electricity would have cost **$5,540** if it had been purchased from Duke Energy.

30,324 gallons of grease were processed in our digesters for the month.

56 tons of food scraps were processed this month.

19% of our plant's power was generated on-site this month.

The City of West Lafayette's Wastewater Utility has pledged to generate at least 10% of its electricity on-site as Indiana's first wastewater plant to become an EPA Green Power Partner.
