RE: Summer Rate

The Finance Department requests approval from the Board of Public Works & Safety to extend the Summer Rate by one month when calculating wastewater usage.

City Code provides for a summer sewage rate for service in June, July & August (Sec 30.09.3.2). This rate is based on the average usage in January, February, and March. The average for new accounts is estimated at 8,000 gallons, which is the rate for an unmetered residence. The Summer Rate is used when it is less than the actual usage.

Respectfully submitted by,

Peter L Gray, City Controller
