

Sheila and John Graveel live at 1101 Sunset Lane and are the winners of the July 2014 West Lafayette Beautification Award. They each assume very specific roles to beautify their garden. Together they plan the landscape but Sheila has interest in the perennials and trees and planting. John is intensely interested in the precision edges around all the beds. Together they have created a lovely oasis on a shady lot. The front garden is sloped with borders of perennials, annuals plus numerous trees. The rear garden is flat with more perennials and trees and includes walkways, garden art, stonework and a graceful birch tree.
