

Northwestern Heights Crashes 2009-2013

The Area Plan Commission of Tippecanoe County compiles this crash data to encourage public safety and awareness and to help identify hazardous locations that may require further study or qualify for Indiana's Highway Safety Improvement Program funding. This report was prepared in cooperation with the State of Indiana, Indiana Department of Transportation and the Federal Highway Administration.

Due to incomplete reports, geo-location errors, and limitations and errors caused by the reporting systems, not all data and circumstances pertaining to Tippecanoe County crashes are included in this report. The Indiana State Police Crash Records Database is the primary data source for this report. Additional fact checking and quality control reviews have been conducted with the intent to provide the best summary of the available data.

This report contains information that is protected from disclosure by Federal Law, 23 USC Section 409:

Notwithstanding any other provision of law, reports, surveys, schedules, lists, or data compiled or collected for the purpose of identifying, evaluating, or planning the safety enhancement of potential accident sites, hazardous roadway conditions, or railway highway crossings, pursuant to sections 130, 144, and 148 of this title or for the purpose of developing any highway safety construction improvement project which may be implemented utilizing Federal-Aid highway funds shall not be subject to discovery or admitted into evidence in a Federal or State court proceeding or considered for other purposes in any action for damages arising from any occurrence at a location mentioned or addressed in such reports, surveys, schedules, lists, or data
