Roundabouts in West Lafayette

Proposed Yeager Road and Northwestern Avenue Roundabout

West Lafayette Locations Where Roundabouts are Being Considered

- Cumberland Ave. & Kent Ave.
- Cumberland Ave. & Yeager Rd.
- Cumberland Ave. & Manchester Dr.
- Yeager Rd. & Kalberer Rd.
- Yeager Rd. & Northwestern Ave.
- Harrison St. & Martin C. Jischke Dr.

Roundabout Safety Benefits

- Reduction of traffic speeds (15 to 25 mph)
- Drastic reductions in crash rates when compared to a traditional intersection:
  - Up to 90% reduction in fatalities
  - 76% reduction in crashes resulting in injury
  - 30 – 40% reduction in crashes involving pedestrians
- Reduction in conflict points (point at which two opposing vehicle paths cross, and thus a potential for a collision exists)

One school crossing guard stated: “Personally, I love them... you only have to stop one lane [or direction] of traffic, then go to the middle and wait. The cars can’t go much faster than 20 mph through the roundabout, so the crossing aspect is great.”
