Based on its survey, the Commission shall submit to the City Council a map describing the boundaries of a historic district or districts. A district may be limited to the boundaries of a property containing a single building, structure, or site.

However, the Commission may employ other legal counsel authorized to practice law in Indiana if it considers it necessary or desirable.

Section 24.184. Historic Districts and Guidelines

- a. Before a historic district is established and the building classifications take effect, the map described in Section 24.183 of this ordinance, setting forth the district's boundaries and building classifications, must be submitted by the Commission to, and approved in an ordinance by, the City Council.
- b. In an ordinance approving the establishment of a historic district, the City Council may provide that the establishment shall occur in two (2) phases. During the first phase, which continues for a period of three (3) years from the date the ordinance is adopted, a certificate of appropriateness is required for the following activities: the demolition of any building; the moving of any building; and any new construction of a principal building or accessory building or structure subject to view from a public way.
 - (1) At the expiration of the initial three (3) year period, the first phase of the designation of the district continues and the second phase does not become effective if a majority of the property owners in the district object to the Commission, in writing, to the requirement that Certificates of Appropriateness be issued for the following activities:
 - (a) a conspicuous change in the exterior appearance of historic buildings

by additions, construction, alteration, or maintenance involving exterior changes;

(b) a change in walls and fences or construction of walls and fences, along public ways;

(c) a conspicuous change in the exterior appearance of non-historic buildings subject to view from a public way by additions, reconstruction, alteration, or maintenance involving exterior change.

(2) The objections of a majority of the property owners must be received by the Commission not earlier than one hundred eighty (180) days or later than sixty (60) days before the third anniversary of the adoption of the ordinance.

c. **Exclusion of paint colors:** In an ordinance approving the establishment of a historic district, the City shall exclude changes in color of existing paint from the activities requiring the issuance of a Certificate of Appropriateness, defined in Section 24.186.

d. **Recording the fact of designation:** the map establishing boundaries of a historic district may be recorded in the Office of the Tippecanoe County Recorder.

Section 24.185. Interim Protection

a. When submitting a map to the City Council to create a historic district under this ordinance, the Commission may declare one (1) or more buildings or structures that are classified and designated as historic on the map to be under interim protection.

b. Not more than two (2) working days after declaring a building or structure to be under interim protection under this section, the Commission shall, by personal delivery or first class mail, provide the owner or occupant of the building or structure with a written notice of the declaration. The written notice must:

(1) Cite the authority of the Commission to put the building or structure under interim protection under this section

(2) Explain the effect of putting the building or structure under interim protection; and,

(3) Indicate that the interim protection is temporary.

c. A building or structure put under interim protection under subsection (a) remains under interim protection until the map is:

(1) Submitted to; and

(2) Approved in an ordinance or rejected by the City Council.

d. While a building or structure is under interim protection:

- (1) The building or structure may not be demolished or moved; and,
- (2) The exterior appearance of the building or structure may not be conspicuously changed by:
 - (a) Addition;
 - (b) Reconstruction; or
 - (c) Alteration.

Section 24.186. Certificates of Appropriateness

a. **Certificates of Appropriateness required:** a Certificate of Appropriateness must be issued by or on behalf of the Commission before a permit is issued for, or work is begun on, any of the following:

- (1) Within all areas of a historic district:
 - (a) The demolition of any building;
 - (b) The moving of any building;
 - (c) A conspicuous change in the exterior appearance of historic buildings by additions, reconstruction, alteration, or maintenance involving exterior change; or
 - (d) Any new construction of a principal building or accessory building or structure subject to view from a public way.
- (2) Within a primary area of a historic district:
 - (a) A change in walls and fences, or the construction of walls and fences along public ways;
 - (b) A conspicuous change in the exterior appearance of non-historic buildings subject to view from a public way by additions, reconstruction, alteration and/or maintenance involving exterior change.
- (3) Within the first phase of a two-phase establishment of a historic district:
 - (a) The moving of any building;
 - (b) The demolition of any building; or
 - (c) Any new construction of a principal building or accessory building or structure subject to view from a public way.

b. **An application for a Certificate of Appropriateness** shall be made in the Community Development or Redevelopment Departments of the City of West Lafayette on forms provided by that office. All applicants shall be subject to the rules and requirements established by the Commission. Rules may include, but are not limited to, filing deadlines and application requirements such as sketches, drawings, photographs, descriptions, or other information which the Commission requires to make a decision.

c. **Approval or denial of Certificates of Appropriateness:** the Commission may advise and make recommendations to the applicant before acting on an application for a certificate of appropriateness. If an application for a Certificate of Appropriateness is

approved by the Commission, or is not acted on by the Commission within thirty (30) days after it is filed, a Certificate of Appropriateness shall be issued. If the certificate is issued, the application shall be processed in the same manner as applications for building or demolition permits required by the City, if any are processed. If no building or demolition permits are required, the applicant may proceed with the work authorized by the certificate. If the Commission denies an application for a Certificate of Appropriateness within 30 days after it is filed, the certificate may not be issued.

The Commission must state its reasons for the denial in writing, and must advise the applicant. An application that has been denied may not be processed as an application for a building or demolition permit and does not authorize any work by the applicant. The Commission may grant an extension of the thirty-day limit if the applicant agrees to it.

d. Criteria for considering effect of actions on historic buildings:

The Commission, in considering the appropriateness of any reconstruction, alteration, maintenance, or moving of a historic building or any part of or appurtenance to such building, including walls, fences, light fixtures, steps, paving, and signs shall require that such work be done in a manner that will preserve the historical and architectural character of the building, structure, or appurtenance. In considering historic and architectural character, the Commission shall consider, among other things, the following:

- (1) Purposes of this ordinance;
- (2) Historical and architectural value and significance of the building, structure, site or appurtenance;
- (3) Compatibility and significance of additions, alterations, details, materials, or other non-original elements which may be of a different style and construction date than the original;
- (4) The texture, material, style, and detailing of the building, structure, site or appurtenance;
- (5) The continued preservation and protection of original or otherwise significant structure, material, and ornamentation;
- (6) The relationship of buildings, structures, appurtenances, or architectural features similar to one within the same historic district, including for primary areas, visual compatibility as defined in Section 24.188 of this ordinance; and,
- (7) The position of the building or structure in relation to the street, public right-of-way and to other buildings and structures.

e. Procedure for demolition upon denial of a Certificate of Appropriateness.

The purpose of this subsection is to preserve historic buildings that are important to the

education, culture, traditions and economic values of the City, and to afford the City, historical organizations, and other interested persons the opportunity to acquire or to arrange for the preservation of these buildings. If a property owner demonstrates that a historic building is incapable of earning an economic return on its value, as appraised by a qualified real estate appraiser, and the Commission fails to approve the issuance of a Certificate of Appropriateness, the building may be demolished. However, before a demolition permit is issued or demolition proceeds, the following requirements for notice must be met:

- (1) Notice of the proposed demolition must be given for a period fixed by the Commission, based on the Commission's classification on the approved map, but not less than sixty (60) days nor more than one (1) year.
- (2) Notice must be posted on the premises of the building proposed for demolition in a location clearly visible from the street.
- (3) Notice must be published in a newspaper of general local circulation at least three (3) times before demolition, with the first publication not more than fifteen (15) days after the application for a permit to demolish is filed, and the final publication at least fifteen (15) days before the date of the permit.

The Commission may approve a Certificate of Appropriateness at any time during the notice period under this subsection. If the Certificate of Appropriateness is approved, a demolition permit shall be issued without further delay, and demolition may proceed.

Section 24.187. Staff Approvals

- a. The Commission may authorize the staff of the Commission, on behalf of the Commission, to grant or deny an application for a Certificate of Appropriateness via an adopted resolution.
- b. The Commission shall specify by resolution the types of applications for Certificates of Appropriateness that the staff of the Commission is authorized to grant or deny. The staff may not be authorized to grant or deny an application for a Certificate of Appropriateness for the following:
 - (1) The demolition of a building, structure, or site.
 - (2) The moving of a building or structure.
 - (3) The construction of an addition to a building or structure.
 - (4) The construction of a new building or structure.
- c. If any applicant is aggrieved by staff's denial of a Certificate of Appropriateness, within seven (7) days of notice of the denial, the Applicant may request that the application for a Certificate of Appropriateness be heard by the Historic Preservation

Commission at the next regularly scheduled meeting.

(8) Roof shapes: the roof shape of a building must be visually compatible with the buildings to which it is visually related.

- b. A historic building may be relocated to another site only if it is shown that preservation on its current site is inconsistent with subsection (a).

Section 24.190. Maintenance

- a. Historic buildings shall be maintained to meet the applicable requirements established under state statute for buildings generally so as to prevent the loss of historic material and the deterioration of important character defining details and features.
- b. Ordinary repairs and maintenance: nothing in this section shall be construed to prevent the ordinary repairs and maintenance of any historic building, provided that such repairs or maintenance do not result in a conspicuous change in the design, form, proportion, mass, configuration, building material, texture, location, or external visual appearance of any structure, or part thereof.

Section 24.191. Relationship with Zoning Districts

Zoning districts lying within the boundaries of the historic district are subject to regulations for both the zoning district and the historic district. If there is a conflict between the requirements of the zoning district and the requirements of the historic

district, the more restrictive requirements shall apply.

- a. An interested party (as defined in Section 24.181.) has a private right of action to enforce and prevent violation of this Ordinance or an ordinance adopted by the City under this Ordinance, and with respect to any building, structure, or site within a historic district, and has the right to restrain, enjoin, or enforce by restraining order or injunction, temporarily or permanently, any person from violating this ordinance or an ordinance adopted under this ordinance.
- b. The interested party does not have to allege or prove irreparable harm or injury to any person or property to obtain relief under this section.

- e. An interested party who obtains a favorable judgment in an action under this section may recover reasonable attorney fees and court costs from the person against whom judgment was rendered.
