

**ORDINANCE NO. 08-12**

**TO REZONE CERTAIN REAL ESTATE WITHIN  
THE CITY OF WEST LAFAYETTE, INDIANA  
AND DESIGNATING THE TIME WHEN THE  
SAME SHALL TAKE EFFECT.**

**BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF  
WEST LAFAYETTE, INDIANA**

**Section 1:** Ordinance No. 32-97 of the City of West Lafayette, Indiana, is hereby amended to rezone the following describer real estate, to-wit:

SEE LEGAL DESCRIPTION ATTACHED HERETO

**Section 2:** Said real estate is hereby rezoned as follows:

FROM: "R3W" District

TO: "PDRS" District

**Section 3:** This ordinance shall be in full force and effect from and after its passage and signing by the Mayor.

PARCEL I

Forty-five (45) feet off the north side of lot twenty-eight (28) in Ellsworth's Subdivision of a part of Chauncey, now West Lafayette, Indiana, as platted upon part of the East Half of the Southeast Quarter of Section Nineteen (19) in Township Twenty-three (23) North, Range Four (4) West. Located in Wabash Township, Tippecanoe County, Indiana.

PARCEL II

Twenty (20) feet off the entire south side of lot twenty-eight (28) and twenty (20) feet off the entire north side of lot numbered twenty-nine (29) in Ellsworth Sub-division of a part of Chauncey, now West Lafayette, as platted upon part of the East half of the Southeast Quarter of Section Nineteen (19), in Township Twenty-three (23) North, Range Four (4) West. Located in Wabash Township, Tippecanoe County, Indiana.

PARCEL III

Lot Numbered twenty-six (26) EXCEPT forty (40) feet off the entire east end thereof, in Ellsworth's Subdivision of a part of the Original Town of Chauncey, as platted upon a part of the East Half of the Southeast Quarter of Section Nineteen (19), Township Twenty-three (23) North, Range Four (4) West. Located in Wabash Township, Tippecanoe County, Indiana.

PARCEL IV

Lot numbered twenty-seven (27) EXCEPT forty (40) feet off of the entire east end thereof, in Ellsworth's Subdivision of a part of the Original Plat of the Town of Chauncey, now City of West Lafayette. Said lot is laid out and platted upon a part of the Northeast Quarter of the Southeast Quarter of Section Nineteen (19), Township Twenty-three (23) North, Range Four (4) West. Located in Wabash Township, Tippecanoe County, Indiana.

PARCEL V

Forty-five (45) feet of even width off the entire south side of lot numbered twenty-nine (29) in the Ellsworth's Subdivision to the City of West Lafayette, Indiana. Located in Wabash Township, Tippecanoe County, Indiana.

PARCEL VI

Lot numbered thirty (30) in Ellsworth's Subdivision of a part of Chauncey, now West Lafayette, as platted upon a part of the East half of the Southeast Quarter of Section Nineteen (19), Township Twenty-three (23) North, Range Four (4) West. Located in Wabash Township, Tippecanoe County, Indiana.

PARCEL VII

Lot numbered thirty-one (31) in Ellsworth's Subdivision of a part of Chauncey, now City of West Lafayette, as platted upon part of the East half of the Southeast Quarter of Section Nineteen (19), in Township Twenty-three (23) North, Range Four (4) West. Located in Wabash Township, Tippecanoe County, Indiana.

### CERTIFICATION

**RE: Z-2481--WEST LAFAYETTE GRANT STREET, LLC (Grant Street Station PD) (R3W to PDRS):**

Petitioner Shane O'Malley is requesting rezoning of 1.22 acres for a six-story apartment building containing 125 units with 281 bedrooms and a 282 space parking garage. The property is located on the southeast corner of the intersection of Grant and Harrison Streets, West Lafayette, Wabash 19 (SE) 23-4. CONTINUED FROM THE MARCH 21<sup>ST</sup> APC MEETING BECAUSE THE LAFAYETTE LEADER FAILED TO RUN THE REQUIRED LEGAL ADVERTISEMENT.

Dear Council:

As Secretary to the Area Plan Commission of Tippecanoe County, I do hereby certify that at a public hearing held on March 26, 2012 the Area Plan Commission of Tippecanoe County held a special meeting and voted 13 yes - 0 no on the motion to rezone the subject real estate from R3W to PDRS. Therefore, the Area Plan Commission of Tippecanoe County recommends to the West Lafayette Common Council that the proposed rezoning ordinance be APPROVED for the property described in the attachment, contingent on meeting all requirements of UZO 2-28-10 for submission of Final Detailed Plans, signed off by those noted in that section to include:

1. All sheets (other than preliminary plat) that make up the approved Preliminary Plan;
2. PD construction plans per UZO Appendix B2-2;
3. A final plat per UZO Appendix B-3-2 as applicable;
4. Appropriate surety submitted with final detailed plans;
5. Plant schedule approved by the West Lafayette Greenspace Administrator;

Restrictive Covenants – The following items shall be part of the planned development's covenants made enforceable by the Area Plan Commission and irrevocable by the lot owners:

1. The Narrative for Grant Street Station Planned Development, dated February 29, 2012 shall be included as a condition of approval.

Public Notice has been given that this petition will be heard before the West Lafayette Common Council at its Monday, April 2, 2012 regular meeting. Petitioners or their representatives must appear to present their case.

Sincerely,

Sallie Dell Fahey  
Executive Director

SDF/lmu

**Z-2481**

**WEST LAFAYETTE GRANT STREET, LLC  
GRANT STREET STATION PLANNED DEVELOPMENT  
R3W TO PDRS**

**Staff Report  
March 19, 2012**

---

**REQUEST MADE, PROPOSED USE, LOCATION:**

Petitioner, represented by attorney Daniel Teder, is requesting PDRS zoning for 1.22 acres in the City of West Lafayette for a six-story apartment building containing 125 units with 281 bedrooms and 282 parking spaces. The property is located on the southeast corner of the intersection of Grant and Harrison Streets, West Lafayette, Wabash 19 (SE) 23-4.

**ZONING HISTORY AND AREA ZONING PATTERNS:**

R3W zoning completely surrounds the subject property. There has been no rezoning activity in the immediate vicinity for many years and all of the student-oriented private development in the neighborhood has occurred as a matter of right under the R3W zoning district regulations.

**AREA LAND USE PATTERNS:**

Apart from the university's buildings, multi-family apartments and converted single-family homes dominate the neighborhood. The nearest owner-occupied single-family home, located on South River Road, is over 3,000 feet away from the subject property and not even within the city limits.

**TRAFFIC AND TRANSPORTATION:**

Grant Street is classified as a primary arterial and Harrison Street is classified as a local road according to the adopted *Thoroughfare Plan*. Right-of-way is being dedicated along both street frontages for the future "Perimeter Parkway" road project. Parking for the project is accessed off of Harrison Street and the alley that bisects the block from Harrison Street to Williams Street. The project is parked at 1 space per bedroom with an option included in the project's narrative document to reduce the required parking amount through the minor modification process by submitting parking reports to the Administrative Officer of West Lafayette, which would then free up parking spaces for lease to others. To support transit usage the developer is also providing a bus shelter along the Grant Street frontage to serve the multiple bus routes that pass the site.

**ENVIRONMENTAL AND UTILITY CONSIDERATIONS:**

City utilities and Indiana American water are available to serve the site.

**STAFF COMMENTS:**

Grant Street Station is an important project in the history of this neighborhood. For many years, the neighborhood south of State Street has developed within the limits of the R3W zoning district with a handful of planned developments established mostly along the perimeter of the neighborhood near the Village and the Levee. Grant Street Station is the first planned development that is in the heart of the neighborhood. At six-stories and set close to the street, it establishes an urban look and density that is appropriate for a near-campus, apartment dominated neighborhood. Encouraging higher density in this neighborhood is consistent with some of the most basic planning principles of sustainability such as utilizing existing urban infrastructure rather than sprawling into the suburbs and designing a project with alternative transportation in mind. Grant Street Station is designed to meet these planning principles and further sets itself apart from other projects with such resident amenities as a second floor open pool deck, a large sixth-floor private fitness center and by bringing Zipcar car-sharing to the site in the event the campus-based program is expanded into the city. In all, this planned development sets a new and welcome standard for this near-campus neighborhood.

**STAFF RECOMMENDATION:**

Approval, contingent on meeting all requirements of UZO 2-28-10 for submission of Final Detailed Plans, signed off by those noted in that section to include:

1. All sheets (other than preliminary plat) that make up the approved Preliminary Plan;
2. PD construction plans per UZO Appendix B2-2;
3. A final plat per UZO Appendix B-3-2 as applicable;
4. Appropriate surety submitted with final detailed plans;
5. Plant schedule approved by the West Lafayette Greenspace Administrator;

Restrictive Covenants – The following items shall be part of the planned development's covenants made enforceable by the Area Plan Commission and irrevocable by the lot owners:

1. The Narrative for Grant Street Station Planned Development, dated February 29, 2012 shall be included as a condition of approval.

Planned Development (PD) Narrative  
Grant Street Station PD

## Project Overview & Timeline

The “Grant Street Station PD” is a proposal to redevelop the south-east corner of Grant Street and Harrison Street in West Lafayette.

The project is a six (6) story residential development with (2) levels of garage parking (basement and first story) and additional surface parking spaces. The project will provide:

1. Apartments with up to **281 student housing beds** above on the 2<sup>nd</sup> through 6<sup>th</sup> floors.
2. Residents’ amenities (as outlined below in *Amenities*).

The unit mix for the all-apartment option shall be as followed:

- (5) One-bedroom units
  - (90) Two-bedroom units
  - (24) Three-bedroom units
  - (6) Four-bedroom units
- Total = 125 units

All units shall be limited to one occupant per bedroom.

The project is scheduled to begin construction in the second half of 2012 with a scheduled completion date of August 1, 2013.

## Existing Conditions and Zoning History

The property for the “Grant Street Station PD” will redevelop a portion of Lots 26 and 27 and Lots 28, 29, 30, and 31 of the Ellsworth’s Subdivision to the Town of Chauncey, now 300, 306, 322, 328, and 334 South Grant Street in West Lafayette, Indiana. Seven (7) single or 2-story single-family houses currently reside on the property with approximately 40 student beds. All buildings are occupied currently with for-rent multi-family tenants. The property is currently zoned R3W.

## Building and Architectural Information

The proposed building façade will incorporate a combination of limestone, brick masonry, stone veneer or “cultured stone” and exterior insulated finish system (EIFS) to create a new and contemporary residential center for off-campus living near Purdue’s campus. The building’s roof will use a low-slope (commonly referred to as flat) roof to achieve an “urban” look and minimize the overall height of the structure. The building elevations are depicted on the Elevations prepared by KJG Architecture, Inc (“KJG”). All signage will be proportional to the building façade and building height at which it is

mounted as shown in the Elevations. Elevators have been incorporated in the building and garage. Air conditioner compressors shall be located on the roof and will not be visible from the street. The center stairway shall extend to the roof deck for maintenance access.

## **Traffic**

Pedestrian access to the building will be along Grant Street with entrances on the north end, center, and south end of the proposed project. A ramp complying with the American with Disabilities Act shall be provided to the main entrance and to the pool deck.

Vehicular access to the upper parking area will be along Harrison Street and the alley to the east, and access to the lower parking level will be on the south end of the alley. A passenger loading/unloading drive is proposed in the Grant Street right-of-way. This passenger loading/unloading may be removed if in the event that Grant Street is widened at a future date. All deliveries and trash pickup will be located on the 1st story parking deck behind the Grant Street façade. The Owner shall provide a bus shelter near the intersection of Grant Street and Harrison Street for public transportation access to the project. The final location and size shall be coordinated and approved with CityBus of Greater Lafayette.

## **Landscaping**

Extensive landscaping will be featured throughout the Grant Street Station PD. The landscaping will include at-grade pervious area, which includes grass areas, landscaped mulch areas with various shrubs and decorative trees, new shade trees in the Grant Street and Harrison Street right-of-way, and a second level pool deck with landscape planters. The specific species and location of all shrubs, plants and trees are shown on the final plans.

## **Parking**

Parking for the Grant Street Station PD will be accommodated in a proposed (2) level parking garage with **264 private parking spaces** and an additional **18 private parking spaces** at grade off the alley. The total proposed parking is **282 parking spaces**. With the approval of the Administrative Officer, the on-site parking requirement shall be reduced upon the occurrence of a reduction of pertinent parking requirements as established by the City of West Lafayette ("City"). As part of the project, the parking spaces shall be 8'-6" wide by 18'-0" deep (except for the ADA spaces and spaces off the alley, which are being provided 9'-0" in width). The proposed parking allocation for the PD is summarized and qualified as follows:

- **Residential Parking:** Parking for the on-site residential tenants of Grant Street Station shall be available at a rate of one parking space per bedroom. Parking

shall be included in the lease and will not be an additional charge for the use of the parking space.

- **Employee Parking:** One (1) parking spaces shall be provided for the full-time manager/maintenance employee for this building.
- **Licensed Parking:** *Future License Agreements:*
  - o License Agreements subject to Minor Modification of PD by City: The Owner shall be allowed to license up to twenty (20) parking spaces (“**Restricted Licensed Spaces**”) subject to Administrative Officer’s approval of a Minor Modification of this PD and City Attorney’s approval of a License Agreement. Owner shall demonstrate, via parking reports submitted to the Administrative Officer over a time period acceptable to the Administrative Officer, that the Restricted License Spaces are not needed for the residents of the project.
- **Shared Vehicle:** Subject to Administrative Officer approval as part of a Minor Modification to the PD, up to two shared vehicles may be provided as part of a shared vehicle program, similar to Zipcar or Hertz on Demand . The total allowable spaces available to residents shall be reduced (8) space per shared vehicle.

## Signage

**PD Building Signage:** The owner or developer shall be allowed to install the following signage mounted on the building as shown on the Exterior Elevations.

- One (1) sign with the building’s name on metal, porcelain, or painted wood sign, located at the center of the west elevation over the main entrance as shown on the exterior elevations and signage details. Sign shall be illuminated from decorative light fixtures shown on the building and site lighting sheet.
- One (1) sign with the building’s name on metal, porcelain, or painted wood sign to be installed on the corner of the building at the Harrison Street and Grant Street intersection.
  - o **Prohibited Sign Types:**
    - Back-lit box signs with transparent or translucent faces.
    - Signs with moving or flashing lights (strobes, chasers, LED, etc.).
    - Customizable message “reader” board signs, Portable signs (temporary portable signs shall be permitted pursuant shown on the to NUZO requirements).

**Way-finding Signage:** The owner or developer shall be allowed to install the following signage mounted on the building as shown on the Exterior Elevations.

- One (1) 24"x24" engraved cast stone sign at each parking garage entrance (a total of three (3) signs) to be set into the stone veneer. Engravings shall indicate resident only parking and entrances for deliveries.
- One (1) 24"x12" engraved cast stone at the north and south pedestrian entrances (a total of two (2) signs) to be set into the stone veneer. Engravings shall label the north and south entrance for way-finding purposes.
- One (1) 8" tall by length needed (no longer than 6'-0") metal, porcelain, or wood sign to at the lower parking garage entrance to indicate maximum clearance of 7'-0" in the lower garage.

## **Lighting**

The proposed building will incorporate classic façade mounted lighting fixtures around the public street-sidewalk frontages along Harrison and Grant Street. The parking decks shall be lit with ceiling surface mounted high-intensity discharge fixtures as shown on the Lighting Plan. The north building façade will be lit with ground-mounted flood lights. All lighting will be subject to final review and approval by the Administrative Officer with the Final Detailed Plans. The lighting fixtures proposed are located in Appendix A.

## **Bicycle Parking**

The residents will be encouraged to utilize the covered bicycle racks located in the parking garage. The building will contain 53 bicycle storage spaces on the first level of the parking garage (covered) and 53 bicycle storage spaces on the basement level of the parking garage for a total of **103 bicycle storage** spaces.

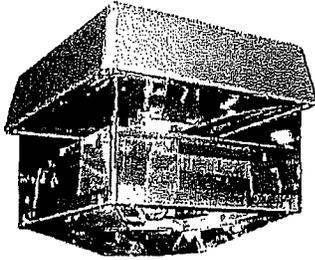

## **Amenities**

The building owner shall provide and maintain the following amenities for the building residents' use:

- Swimming Pool and pool deck. (The pool and deck will be open from 9 AM to 9 PM and shall be accessed via the corridors on the second floor.)
- Fitness Room. (The fitness room shall be located on the 6<sup>th</sup> floor per the building floor plan and shall be available 24 hours a day.)
- Mail Room. (The mail room is integrated into the main building entrance.)
- Trash chutes/room. (The trash chute shall be used by residents to place their trash into dumpsters in the trash room. No residents will have access to the 1<sup>st</sup> floor trash room.)

No ATM shall be located on the exterior façade of the building.

**APPENDIX A – LIGHT FIXTURES**  
**Grant Street Station PD**  
**Proposed Light Fixtures as Specified on Lighting Plan:**

## SP series

### Parking & under canopy

- Square Spectra-Lyte parking & under canopy luminaire series
- 70-175 W standard HID sources
- Easy Hanger Plate mounting, Pendant, direct (thru-wire) or yoke mount available
- Durable die-cast aluminum alloy housing
- Corrosion-resistant external hardware and finish

### Specifications

**Housing:** Die-cast aluminum alloy with corrosion resistant hardware and finish to ensure durability within parking structures. Constructed to IP54.

**Optical system:** Injection-molded, UV stabilized, high impact acrylic lens. Enclosed and gasketed Optical assembly with vertically lamped optics has an internal reflector system with upper and lower apertures for controlled downlight with uplight component. Reflector shields the arc tube to restrict disabling glare. Downlight component has a Type V square distribution. Upper aperture provides symmetrical, upward light component to provide fill light on ceiling. Specular, high purity anodized aluminum reflectors. Primary reflector is fixed within lens interior for proper photometric alignment. Secondary upper reflector redirects high angle light back into the useful beam.

**Lamp / Socket:** BT/ED17 lamp. Porcelain socket with spring-pressure center contact, 4 kV pulse rated, mounted directly to the upper reflector.

**Ballast:** HPF ballast with reliable starting temperatures as low as -34°C (-30°F) for PSMH, and -40°C (-40°F) for HPS. Class H, 180°C (356°F) rated insulation system.

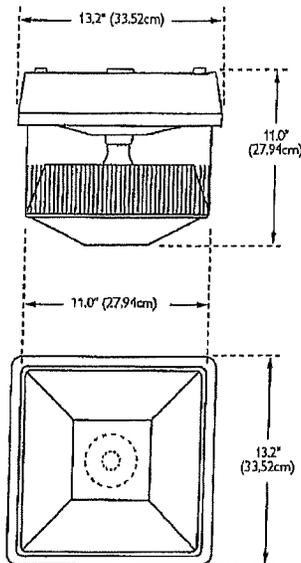

**Mounting:** Standard galvanized steel Easy Hanger Plate. External set screw allows the fixture to be locked or removed without fixture disassembly. Pendant mounting to 3/4" rigid conduit, surface mounting with feed-through wiring and yoke mount bracket available.

**Finish:** TSA = textured satin aluminum, TDB = textured dark bronze, TBK = textured black, TWHT = textured white, TGR = textured gray, TGN = textured green, and RAL(\*) = custom color (\* = specify RAL #).

**Listings:** ETL/cETL Listed luminaire, to the UL 1598 standard, suitable for Wet Locations.

**Warranty:** Standard 5 Year Limited Warranty.

## Specifications

**CONSTRUCTION** Precision die-cast aluminum housing and back plate.

**OPTICS** Heat and shock resistant, borosilicate glass refractor.  
One-piece "wrap-around" shape for maximum light utilization.  
Anodized aluminum reflector.

**ELECTRICAL** Porcelain spring-loaded 4 kV pulse rated socket- mogul/medium base.  
Mogul or medium base lamp supplied as noted.  
Starting temperature: LX(HPS)-40°F-40°C, PMA(PS)-20°F-30°C.

**MOUNTING** One tapped hole on each side and top (1/2" NPS standard) for conduit or optional photocontrol.

**FINISH** Standard finish is Flat Bronze polyester powder coat, electrostatically applied, which is preceded by a five step pre-treatment process including an iron phosphate priming stage for superior coating adhesion. This process meets or exceeds all ASTM testing requirements, including those for 1,000 hour salt spray endurance testing. Designer colors may be specified.

**LISTINGS** UL/cUL 1598 listed, suitable for wet locations.

**WARRANTY** Mechanical, finish and electrical shall be covered by a limited 1-year warranty. See terms and conditions for details.

Some luminaires use fluorescent or high intensity discharge (HID) lamps that contain small amounts of mercury. Such lamps are labeled "Contain Mercury" and/or with the symbol "Hg". Lamps that contain mercury must be disposed of in accordance with local requirements. Information regarding lamp recycle and disposal can be found at [www.lamprecycle.org](http://www.lamprecycle.org).

## Specifications

### HOUSING:

356 HM high-strength, low-copper, proprietary cast aluminum alloy. Single thumb screw hinged roof and non-ferrous fasteners

### FINISH:

Thermoset polyester powdercoat is electrostatically applied after a five-stage conversion cleaning process and bonded by heat fusion thermosetting. Laboratory tested for superior weatherability and fade resistance in accordance with ASTM B117 specifications. For larger projects where a custom color is required, contact the factory for more information.

### OPTICAL ASSEMBLY:

Type III Refractor Bowl, Type V Refractor Bowl, heat-resistant borosilicate glass Clear acrylic panels Panels Prismatic polycarbonate.

### ELECTRICAL ASSEMBLY:

Ballast assemblies are mounted to an aluminum plate or spinning, which is mounted inside the ballast housing.

### BALLAST:

All HID ballasts are core and coil and regulated with power factors better than 90% (HPF). Ballast provides +/- 5% lamp power regulation with +/- 10% input voltage regulation. Ballasts are factory pre-wired and tested. Metal halide ballasts are capable of starting at -20° F or -30° C and HPS at -40° F or -40° C. NOTE: All ballasts are EISA / Title 20 / Title 24 compliant where applicable.

### CERTIFICATIONS:

ETL Listed to U.S. safety standards for wet locations. cETL listed to Canadian safety standards for wet locations. Manufactured to ISO 9001:2008 Standards.
