308 Stadium Application for Carport

A carport was constructed at this address without any permits or approvals. Since finding out about the carport being constructed, a building inspector and Chandler Poole contacted the homeowners and visited the site. The owners have since filed a building permit which is on hold until this committee approves their plans. Currently this carport has an angled roof, while the rest of the house has horizontal lines. The angled piece does not currently fit with the rest of the structure. The homeowners are proposing putting a façade on that angled section so that it reflects the horizontal lines to make it match the existing home.

The Commissioners discussed the proposed suggested changes. Commissioner Newman moved that the committee accept the proposal of the applicant as stated, with the suggestions offered by Mr. Wahl and Commissioner Sondgeroth. Commissioner Sondgeroth seconded. Approved unanimously.

Commissioner Bunder moved to adjourn the meeting. Commissioner Newman seconded. The sub-committee adjourned at 6:19 p.m.

Peter Bunder, Chair
