

## Beautification Winner September 2016

The September 2016 Beautification Award has been given to Judy and Leo Weitzman of 221 Pawnee Drive. They have lived at this address for 26 years; Judy does the actual gardening and Leo is the engineer. The back garden overlooks a ravine and has evolved from a swimming-pool-filled sunny area to a shady area filled with hosta, ferns and hardscape. The front and side gardens are sunny and include perennials and trees. Two of the Weitzman daughters were married in the garden. The philosophy of the garden has always been to create a quiet peaceful place, or “A glen in the woods.”
