*The West Lafayette Go Greener Commission promotes environmental health in our community for present and future generations. The commission gathers and disseminates information; plans and promotes practical initiatives and public policies; and measures, monitors, and reports on our community's progress toward sustainability.*

Please mark your areas of top interest:

- Energy Efficiency and Alternative Energy
- Natural Resource Stewardship (urban forestry, river and water quality, brownfields...)
- Stormwater Management
- Recycling and Environmental Purchasing
- Smart Transit (Multi-modal, alternative transportation...)
- Community Gardens and Local Food
- Climate Change Policy
- Public Outreach and Events
- Other \_\_\_\_\_

Please describe how your experiences, training, research or interests will contribute to the West Lafayette Go Greener Commission:

My research is based on molecular plant biology. The focus of my research is on how single cell morphogenesis affect the overall growth of a leaf. This has trained me to appreciate how small changes in a community can lead to high impact changes over time. I hope my contribution to this commission is the implementation of useful changes that will lead to a better environmental health in our community.

Are you interested in being considered for an appointment to the West Lafayette Go Greener Commission? (Note: The Board of Commissioners meets one time per month)
