

September Beautification Award Winner

Sarah and Tom Andrew of 1816 Summit Drive

Sarah and Tom Andrew moved into their new home on 1816 Summit three years ago. Since then they have transformed the property and landscaping into a truly beautiful, balanced setting complete with ornamental trees, window boxes, planters, and many perennial flowers. Sarah, who handles most of the garden planning, says that a key to a beautiful garden is knowing the shade tolerance of your flowers and shrubs. She said that in her own yard she had to use a lot of shade plants, but she was aware of that situation and was able to plan accordingly. Congratulations, Sarah and Tom, for designing a beautiful lawn and garden that is helping to make our city beautiful!
