

The Margerum Government and Community Center will be open in December 2020.

## I'LL BE HOME FOR CHRISTMAS

The Margerum Government and Community Center is in its final stages of completion. The staff from City Hall will move (for the last time!) to their new home by Christmas. The 1929 building is better than ever with new lighting, meeting and office spaces, landscaping, cabinetry, paved parking lot—the works. The historical integrity of Morton School has been preserved, saving the best of the best.

New information technology and security systems are in place to meet the needs of today and tomorrow. The public may reserve community rooms on the first floor. The new “Bean” room holds up to 70 people. The City will host an open house for the public in December; please check the City website for details. Your needs for City Services will be met during the move except for Christmas and New Year’s holidays at the Margerum Government and Community Center. Online or dropbox payments are always welcome.
